## Champion Country

For 28 years Champion has been both producer and consumer of goods and services in Texas. ¶ As a producer of fine papers, Champion is a good customer of its Texas neighbor industries with its purchases of pulpwood, natural gas, sulphuric acid, salt, lime, clay and other ingredients in the paper-making process. As consumers, Champion's men and women — spending an annual payroll of \$12 million — are good customers of their neighbor business and professional folks. ¶ Purchases and payrolls like Champion's, spent with neighbors, help support a healthy economy, help make Texas truly Champion Country.
