August 24, 1983 didn't simply signify the fearfully anticipated first day of school. For the freshmen, it also meant the chance for a new beginning.

The majority of the 685 freshmen stepped into the massive maze of halls for the first time that morning and were confronted with imposing upper classmen, new teachers, and a strange bell schedule.

Soon after one adjusted to being looked down upon, he or she was swamped by offers to join clubs and organizations. The opportunities seemed endless and varied. The club one joined often reflected personality and choice of friends. It was through these clubs that a "lowly" freshman made a name for himself, gaining an identity other than "FRESHMAN."

It rarely took long for new friendships to develop. These were the friends which

made school tolerable, outside activities exciting, and memories of high school more pleasant. The first day for these freshmen marked the start of new challenges, changes, and

opportunities. Thus began a four-year period of decisions which contributed greatly in determining personality, lifestyle, and goals.

At the beginning of the 1983-84 year the freshmen chose six officers to represent their class.

Of the many freshmen who ran, those elected were Sandy Zamarron, president; Teri Haley, vice-president; Chau Le, secretary; Reagen Crosson, treasurer; Angelica Morua, historian; and Laura Smith, parliamentarian.

Sandy said, "I chose to run for class officer so that I can be involved with school activities."  
Chau added, "It's a sure way to meet new and interesting people."  
"Being a class officer should help me get involved with my fellow classmates," said Reagan.

Mrs. Barbara Dominy and Mr. James Alexander sponsored the freshman class. Mrs. Dominy said, "These officers are true leaders and a joy to work with." Mr. Alexander added, "They seem to have responsibility and that is exactly what it takes to be good leaders."

Each year, the freshman, sophomore, and junior classes chose money making activities to earn money to pay senior prom expenses. The activity for the freshman class was selling posters and according to their sponsors it was very successful.

"We raised some money for our prom. It was a lot of fun trying to sell posters and helping out the freshmen. It seems parents bought more than the teenagers. I hope we have as good selling product next year as we had this year," answered freshman Tina Peveto.

Derek Munz and Sandy Zamarron were chosen as freshman class favorites.

Sandy served as president of the freshman class and was a band member. She said, "I try very hard to be involved in various activities. When I ran for president, I got all of my encouragement from close friends and family." Sandy was also involved in church activities, and she was an organizer for the 1987 Senior Latin American Prom.

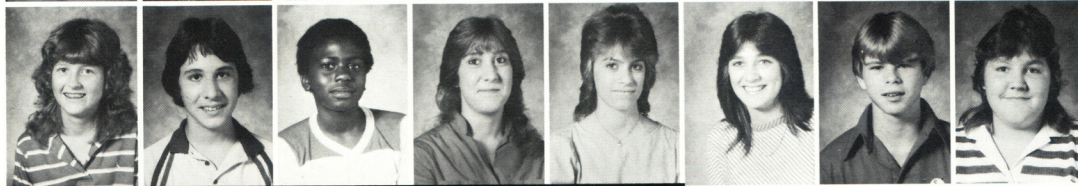

Derek's interests centered around sports. He played football, basketball, and baseball. About being chosen Derek expressed, "I am glad that I was chosen, it makes me feel good to know that my peers like me."

**CALORIE  
 THEIR  
 TABS  
 ONE  
 TEST**

Spending three days in extended homeroom was a relief for the upperclassmen but a dreadful event for the freshmen that were taking the TABS test.

Required to take the Texas Assessment of Basic Skills on February 7, 8, and 9, the freshmen labored long and hard while the upperclassmen who had passed the exams spent time catching up on homework, playing games, watching television, or, heaven forbid, studying.

Freshman Scott Matula remarked, "It was good because it took up first period and part of second period, but we could have taken it after lunch when we were awake."

All students had to pass the TABS test before they were allowed to graduate. Freshmen were a little apprehensive about the test, but they found relief after the testing. "It was easier than I thought it would be," said freshman Chris Young. Freshmen Jeff Medeiros (Moore) and Jason Tijerina (Tij) "Thought it was hard," but many of their classmates

Although taking three days to complete, the results of the TABS test are compiled on a mere page per student.

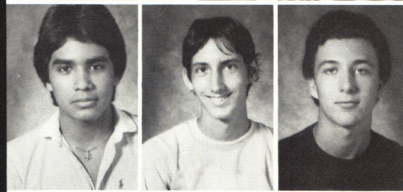

disagreed. "The math was so easy that my little sister could do it — it was on the fifth grade level," exclaimed freshman Shannon Jones. Freshman Chris Dove added, "It was easy. I only had a little trouble with percentages."

The reading and writing sections of the test were not difficult

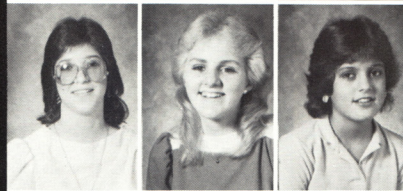

according to several freshmen. "It was so easy that it was pathetic," said Anthony Miranda.

In late spring, results from the testing were returned to the local school districts; parents received individual student results at the close of the school year.

The day was drawing near and each day that passed brought it even closer. Soon, the freshmen of 1983-84 were no longer going to be at the bottom. It was the day to which all freshmen were looking forward. Freshman John Jackson said, "I feel like I'm stepping out of the depths of depression," and freshman Teresa Coles added, "It will be great because I won't be called 'FISH' anymore and I can tease the new freshmen."

Many of the freshmen had big plans for the rest of their high school years although some were nervous about what was

expected of them in the years to come. Many said they wanted to have fun the rest of their high school years, while others just said they couldn't wait for the next three years to pass. Freshman Doug Parker said, "I would like to get involved in as many activities as possible and do my best, but I also want to have as much fun as I can." Freshman Tassie Slay summed it up when she said, "It's going to be great to be able to look down at a class instead of having everyone look down at us."

There it was. Right there on page 338. It was scholarly. It was grammatically correct. Webster's New Student Dictionary defined a freshman as a student in his first year or having chiefly first year standing. However, some SoHo juniors and seniors expressed their own definitions of a freshman.

There were some who viewed freshmen as people. These upperclassmen exhibited sympathy, compassion, and understanding to the underclassmen.

Senior Mike Kastensmidt considered a freshman to be, "One who is going through a necessary phase change in the process of human development."

Senior Amy Bauser encouragingly added that, "A freshman is a senior in the making."

Being sympathetic, senior Missy Espinoza called a freshman, "The poor little guy who has to start all over again."

photo by Tracy LeCroy

**Left:** "I look forward to the day when I can treat freshmen the way I was treated." — Scott Pearson. **Right:** "My freshman year held a lot of surprises, good and bad." — Katha Hawkins

photo by Tracy LeCroy

On the other hand, there were many who were not as kind when describing their idea of a freshman.

Senior Sheela Shankar jokingly called a 'Fish,' "The lowest being on the totem pole."

Junior Christian Post, thinking back a couple of years, remarked that a freshman was, "A person who thinks the only way to date someone is to go steady and that the hottest place in town is the Skate Ranch."

Senior Tina Richnow said, "Freshmen are little bitty things that get stepped on in the halls."

Remembering the time of his own disillusionment, senior Paul Flores pointed out that a freshman was, "Someone who still believes in Santa Claus."

Perhaps sophomore Dana Havard described them best when she said, "Freshmen are people who make honest mistakes which make them appear foolish."
