## NO BRIGHTER FUTURE EVER CALLED

Eternally the eyes of youth replenish a worn world's vision of greater life, where luxuries are made commonplace and necessities abundant. Each generation sees its Pasteur, its Marconi, its Charles Martin Hall emerging from the humble dreamland of basement science to change more visions into realities for the greater leisure, wealth and health of all mankind.

But never have young chemists been able to look into a more rewarding future than now, when the full flowering of industrial chemistry is surely just ahead. Today's growth of industry sinks taproots into chemistry, because basic chemicals, such as DIAMOND makes, are essential to every industry, everywhere. In DIAMOND's own expanding laboratories, alert young visionaries are being offered challenging new life-goals in this exciting age of chemistry.

GO **Gas** FOR  
**MODERN LIVING**

When it's time to buy appliances, smart young homemakers choose *gas*. They know *gas* is the last word in easy, efficient housekeeping. And they know it pays to invest in modern, automatic *gas* appliances they'll enjoy for years.

Go gas for:

- ★ Cool, clean, fast cooking
- ★ Silent refrigeration
- ★ Speedy, economical clothes drying

## DEEP ROOTS

**L**IKE Texas pines, young Texans have deep roots in their native soil. Champion, a young Texan of 18 years, has deep roots, too.

We're proud of our role in Texas industry — employing Texas people and using a Texas resource to create new wealth for Texas.

But we especially like to think that in our small way we're helping more young Texans grow and prosper with their own State.

Chapter II

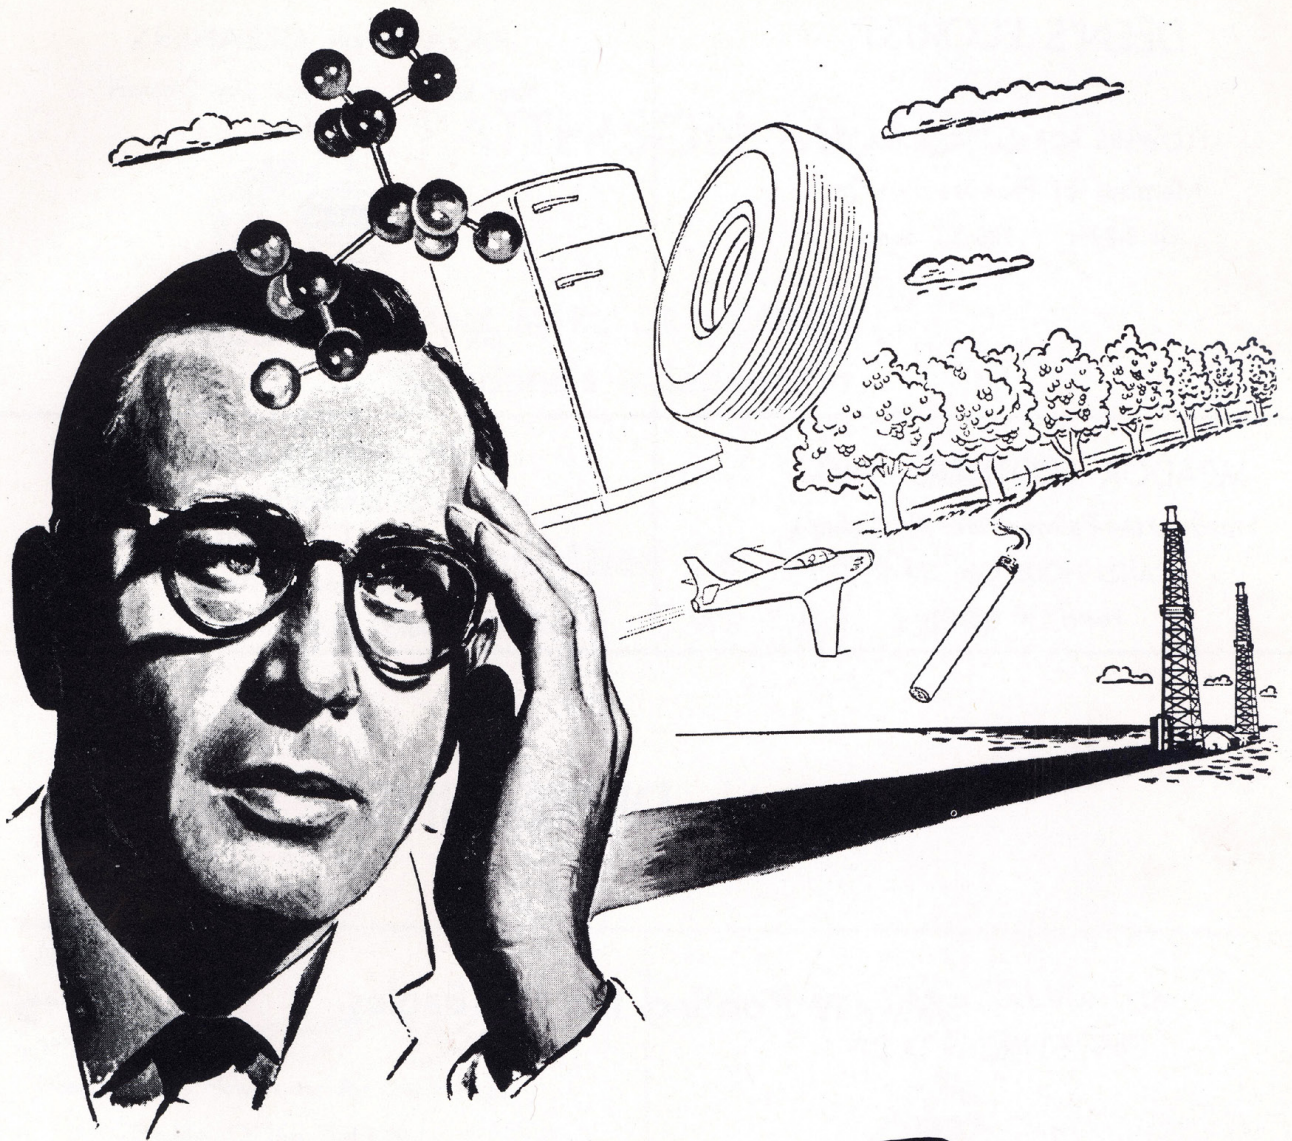

And then came Christmas and the holidays with another rush of activities

with the aroma of evergreen and the thrill of mistletoe . . .

Just when they were ready to dig in—mid term exams! Of course there were always assemblies we had to attend.

# Ideas Come First

Behind every invention is an idea. Behind America's high standard of living are the fruitful thoughts of men.

This is especially true in the petroleum industry, which has contributed so much to the nation's economy, comfort and protection.

At Shell's series of research centers across the nation, skilled scientists from the world's great universities are constantly seeking and proving out new ideas that will help oil do an even better job for you.
